EXPERIENCE

CareCloud, *Remote*— Sr. Software Engineer (Consultant)

JAN 2024 - APR 2024

Worked with the cross-functional teams across Pakistan and the US. Investigated and delivered fixes to obscure bugs in the legacy codebase. Responsible for chalking out detailed plans for migrating from Ruby 2 and Rails 4 to Ruby 3 and Rails 6.

DeltaLabs, *Lahore PK* — Sr. Full Stack Engineer

FEB 2020 - SEP 2024

Managed teams and led development across various projects, regularly engaged with clients to assort requirements and determine scope of work before delegating work. Worked in tandem with the engineers to architect the foundation of the said projects.

Seers Co, *Lahore PK* — UI/UX Designer & Developer

NOV 2018 - JAN 2020

Worked closely with the back-end engineers to integrate user interfaces with server-side logic, designed visually appealing and user-friendly graphics for the company website and relevant social media, delivered concept redesigns of the company website.

Veteranlogix, *Lahore PK* — Full Stack Engineer

MAY 2017 - SEP 2018

Lead the design-work as the team's resident UI developer with the design background, created management dashboards with Vue.js integrated with Laravel, created custom themes for the WordPress projects.

Hobuddies (Pvt) Ltd, *Lahore PK* — Full Stack Engineer

JAN 2017 - MAR 2018

Led the migration of the web application from Laravel to React.js and Ruby on Rails, created APIs for the company's mobile app, handled all graphics design related tasks with a focus on establishing and maintaining a professional brand image.
